

# SUNNY PAWAR

## FULL STACK DEVELOPER

✉ [thesunnypawar16@gmail.com](mailto:thesunnypawar16@gmail.com) | ☎ 9765006074 | 📍 Navi-Mumbai | 🧑 [LeetCode](#)

## CAREER OBJECTIVE

Motivated and detail-oriented software engineering graduate seeking a Software Engineer role to apply programming knowledge, problem-solving abilities, and passion for technology in a collaborative environment.

## Education

### BACHELOR DEGREE -COMPUTER SCIENCE

- DEC 2023

Sant Gadge Baba Amaravati University

7.7 GPA

## Technical Skills

- Programming Languages: Java, JavaScript, C++, C
- Frontend: HTML, CSS, JavaScript, React.js, Tailwind, Bootstrap
- Backend: Spring Boot, Spring JPA, Spring Security, JWT, Restful API, OAuth2, Hibernate, SQL, Postgres
- Other: Git, GitHub, OOP's, Collection Framework, Data Structure and Algorithms, leveraging AI tools (Chat GPT, Cursor, Windsurf, Claude Code)

## Projects

- [Easy - PG \(pg rental platform for students/employees\)](#)
  - Built a full-stack PG rental platform using **Next.js**, **TypeScript**, **Tailwind CSS**, and **Spring boot**
  - Designed responsive UI with reusable components and integrated RESTful APIs for dynamic data.
  - Implemented features like property booking, bookmarking, contact forms, and owner dashboards.
  - Handled form validation with **Zod**, and deployed the app using **Vercel** and secure API endpoints.
- [Role-Oriented Access Control](#)
  - Developed a secure web application using **Spring Boot** and **OAuth2** for implementing **Role- Oriented Access Control (ROAC)**, managing user authentication and authorization.
  - Implemented key features such as **role management**, **access control**, and **secure endpoints** to ensure users with different roles had appropriate access to resources.
  - Focused on **back-end development**, enhancing skills in **security**, **authentication mechanisms**, and **API development**.
- [Json Generator](#)
  - Developed an interactive JSON schema builder using **React**, enabling users to define custom fields with nested objects and arrays.
  - Implemented Supported multiple data types including **string**, **number**, **boolean**, **uuid**, **email**, **date**, and **enum**.
  - Integrated live preview functionality to display the current schema and the generated JSON in real-time and modular components for field creation, schema visualization, and JSON output display.

## Internship/Training

### Full Stack Java Development Intern (Q-Spiders)

[Aug – 24 to June-25]

- Completed an intensive internship focused on full stack Java development, gaining hands-on experience with front-end technologies (HTML, CSS, JavaScript, Bootstrap, Tailwind, etc) and back-end technologies (Java, Spring boot, Spring MVC, SQL, etc.)
- Developed and implemented responsive and user-friendly web applications using HTML, CSS, and JavaScript to create dynamic and interactive user interfaces.
- Utilized Java for server-side development, implementing business logic, RESTful APIs, and database interactions using SQL to ensure efficient data storage and retrieval.

## Certification's

- FULL STACK JAVA DEVELOPMENT - QSPIDERS
- UDEMY JAVA TOTURIAL FOR BEGINEERS
- FREECODECAMP RESPONSIVE WEB DESIGNER

## Strength's

Strong problem solving, Quick learner, Team player, Passionate about software development
