CAREER OBJECTIVE

Motivated and detail-oriented software engineering graduate seeking a Software Engineer role to apply programming knowledge, problem-solving abilities, and passion for technology in a collaborative environment.

Education

BACHELOR DEGREE -COMPUTER SCIENCE

- DEC 2023

Sant Gadge Baba Amaravati University

7.7 GPA

Technical Skills

- Programming Languages: Java, JavaScript, C++, C
- Frontend: HTML, CSS, JavaScript, React.js, Tailwind, Bootstrap
- Backend: Spring Boot, Spring JPA, Spring Security, JWT, RestfulAPI, OAuth2, Hibernate, SQL, Postgres
- Other: Git, GitHub, OOP's, Collection Framework, Data Structure and Algorithms, leveraging AI tools (Chat GPT)

Projects

➤ [Role-Oriented Access Control](#)

- Developed a secure web application using **Spring Boot** and **OAuth2** for implementing **Role- Oriented Access Control (ROAC)**, managing user authentication and authorization.
- Implemented key features such as **role management, access control, and secure endpoints** to ensure users with different roles had appropriate access to resources.
- Focused on **back-end development**, enhancing skills in **security, authentication mechanisms, and API development**.

➤ [Personal Portfolio](#)

- A **Personal portfolio** website showcasing projects and skills fully **responsive** and optimize for **performance**
- Focused Features an interactive section displaying personal projects with detailed descriptions, technologies used, and links to live demos and GitHub repositories.

➤ [CRUD API for products and Categories \(Rest API\)](#)

- Developed a **RESTful API** for managing **products** and **categories** using **Java Spring Boot, PostgreSQL, and Spring Data JPA** for efficient database interaction.
- Implemented key features such as **CRUD operations, data validation, and pagination** to manage product and category data effectively.
- Focused on **back-end development**, enhancing skills in **API design, database management with PostgreSQL, and RESTful services**. Utilized **Postman** for testing and ensuring API reliability.

Internship/Training

Full Stack Java Development Intern (Q-Spiders)

- Completed an intensive internship focused on full stack Java development, gaining hands-on experience with front-end technologies (HTML, CSS, JavaScript, Bootstrap, Tailwind, etc) and back-end technologies (Java, Spring boot, Spring MVC, SQL, etc.)
- Developed and implemented responsive and user-friendly web applications using HTML, CSS, and JavaScript to create dynamic and interactive user interfaces.
- Utilized Java for server-side development, implementing business logic, RESTful APIs, and database interactions using SQL to ensure efficient data storage and retrieval.

Certification's

- FULL STACK JAVA DEVELOPMENT - QSPIDERS
- UDEMY JAVA TOTURIAL FOR BEGINEERS
- FREECODECAMP RESPONSIVE WEB DESIGNER

Strength's

Strong problem solving, Quick learner, Team player, Passionate about software development
